NO REASON FOR IT

You are Shown the Way Out.

There can be no just reason why
any reader of this will continue to
suffer the tortures of an aching back,
the annoyance of urinary disorders,
the dangers of serious kidney ill-
ness when relief is possible and proof
given that these ills can be cured.
The following is convincing proof.

T. F. Redd, Cadiz & Hopkinsville
Road, Cadiz, Ky., says: "I have no
hesitation in recommending Doan's
Kidney Pills to be the best kidney
remedy I have ever used. My kid-
neys were weak and the secretions
were so frequent in passage that it
was impossible for me to obtain a y-
rest. I had pains in my back and a
heavy feeling through my loins which
seemed as if so much lead were
weighing me down. I was in a mis-
erable condition and although I used
many kidney remedies and consulted
physicians, I received no benefit.
Doan's Kidney Pills helped me at
once and it was not long before they
restored me to good health."

For sale by all dealers. Price 50
cents Foster-Milburn Co., Buffalo,

WHY PRAIRIE IS TREELESS

Iowa Expert Finds This Is Due Not to
Soil or Topography, but to
Climate.

Prof. B. Shimek of the State Uni-
versity of Iowa has been studying
this question in Iowa, where the
treeless prairie originally covered
more than seven-eighths of the to-
tal area of the state. He finds that
the absence of trees is not due pri-
marily to the soil or the topography,
nor to such causes as prairie fires,
the former abundance of the bison,
etc., but is an effect of climate. More-
over, it is not due to a deficient rain-
fall so much as to an excessive rate
of evaporation. "The prairie areas
are uniformly so situated that they
are fully exposed to the factors
which cause rapid evaporation,
namely, the sun and the wind. Dur-
ing much of the year they may pre-
sent conditions quite favorable to
plant growth, but there are seasons
and there are portions of the year,
especially in midsummer, when evap-
oration and consequent desiccation
become so extreme that only those
plants which are especially adapted
to dry regions can survive."—Scien-
tific American.

NOTHING TO EAT

The Tramp—Doctor, I have diffi-
culty in swallowing.
The Doctor—Due to the throat?
The Tramp—No, it's due to not
having anything to swallow.

SPOTTED.

"We Americans—those of us, that
is, who don't buy our clothes in Lon-
don—are recognized abroad by our
coats' broad shoulders and baggy
trousers' width and by the little
humps on the toe-caps of our boots."
The speaker, Richard Harding
Davis, was lunching at the Bellevue-
Stratford in Philadelphia. With a
laugh he resumed:

"Two American young men, as
they strolled among the tall, thin
Englishmen and Englishwomen in
Piccadilly one morning, perceived
that every one recognized their na-
tionality.

"I wonder," said the first, "how
they know we're Americans?"

"The other, more sophisticated,
answered:

"By the United States of our
clothes, of course."

THE BROKEN HEART.

"The party will recover from this
check," said Mayor Craig of Covin-
gton, apropos of a temporary setback.
"They say the party will be broken.
I'd reply that it will be about as
much broken as young Lansing's
heart."

"A chorus girl who had refused
young Lansing said to a friend:

"I have broken his heart, I fear."

"You have. You certainly have,"
the friend replied. "You've broken
it right in half."

"In half? What do you mean?"

"I mean that he takes two girls
out to supper every night now."

TO STUDY SPONGES.

Outside the harbor of Sfax, Tun-
isia, in the shallow water of the
clear Mediterranean, is situated a bi-
ological laboratory for the study of
sponges. It is one of the most
unique in the world, and affords op-
portunity for observing the develop-
ment of the sponge from tiny larva,
so small that it can only be studied
under a microscope, until five years
later, it has developed into a perfect
sponge.
